Taxes

Swiss Federal Stamp Duty	Secondary market transactions are not subject to Swiss stamp duty. The possible Delivery of the Underlying may be subject to Swiss stamp duty.
Swiss Federal Income Tax	For tax purposes this Product is classified as transparent, where the majority of the return of the bond part is in the form of a discount or of one payment on the Redemption Date (IUP). Therefore, for private investors with tax domicile in Switzerland holding the Product as part of their private property, the Interest Component of the coupon on the respective payment date(s) and the increase of the value of the bond part (according to the "Modifizierte Differenzbesteuerung") at sale or at Redemption are subject to the Federal Direct Tax. The present value of the bond part at issue is the Bondfloor per unit. However, any gain derived from the option is considered as capital gain and is therefore for such taxpayers not subject to the Federal Direct Tax. The tax treatment regarding the cantonal and communal income taxes can differ from the tax treatment regarding the Federal Direct Tax. But in general the income tax treatments are corresponding.
Swiss Withholding Tax	The Product is not subject to the Swiss withholding tax.
EU Savings Tax	For Swiss paying agents, the Interest Component is subject to the EU savings tax (TK6).

The tax information only provides a general overview of the potential tax consequences linked to this Product at the time of issue. Tax laws and tax doctrine may change at any time, possibly with retroactive effect.
